

A green, visual and effective assistant

- Rich visual experience with 160x320 graphic LCD
- 20 physical keys each with a dual-color LED
- 20 additional keys through page switch
- Daisy-chain 6 modules up to 120 keys
- Supports BLF/BLA, speed dialing, call pickup, etc.

Yealink EXP39 Expansion Module is designed for improving the power and flexibility of the Yealink advanced IP phones SIP-T26P and SIP-T28P. It features a 160x320 graphic LCD and 20 physical keys each with a dual-color LED. With them, you will be very clear which function had been set and easy for operation. What's more, you could add 20 additional keys through page switch, to make programmable keys up to 40. Each programmable key supports the functions include speed dialing, BLF/BLA, intercom, call forward/transfer/hold/park/pickup/return, etc. It allows 6 EXP39 to be daisy chained at most.

Yealink EXP39 is ideal for receptionists, administrative assistants, call center agents, power users, and executives who need to monitor and manage a large volume of calls on a regular basis.
